### 31 October 2023

## Corporate Objective

To deliver long-term capital growth, while preserving shareholders' capital; to invest without the constraints of a formal benchmark, but to deliver for shareholders increases in capital value in excess of the relevant indices over time.

## **Investment Policy**

Share price total return since inception

To invest in a widely diversified, international portfolio across a range of asset classes, both quoted and unquoted;

to allocate part of the portfolio to exceptional managers in order to ensure access to the best external talent available.

## **Financial Summary**

<sup>1</sup> The ACWI refers to the MSCI All Country World Index and is calculated using 50% of the index measured in sterling and 50% measured in a sterling-hedged ACWI. The sterling-hedged ACWI is used as it incorporates hedging costs, which the portfolio also incurs, to protect against currency risk. It is applied from 1 January 2015 (from when it is readily available), and prior to this date it uses the index measured in local currencies. Before December 1998, when total return indices were introduced, the index is measured using a capital-only version.
