Company Registration Number 2129188

RIT Capital Partners plc

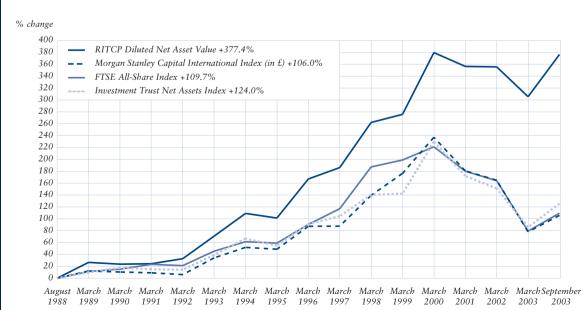

RIT Capital Partners plc ("RITCP") aims to deliver long-term capital growth for its shareholders, allocating its resources internationally over a range of asset classes.

The Company maintains a significant part of its portfolio in quoted securities; it does not follow any rigid geographical or industrial asset allocation.

The Company's status as a self-managed company allows it to allocate elements of the portfolio to managers who specialise in particular asset classes or geographical areas, in both the quoted and unquoted sectors.

The Company aims, over time, to deliver for its shareholders increases in capital value in excess of the relevant indices. Since its inception in 1988, RITCP has significantly outperformed these indices, as can be seen from the graph below.

RIT Capital Partners plc Interim Report 2003

Chairman's Statement

During the half year to 30 September, your Company's net asset value per share increased by 17.5%, from 430.2p to 505.6p. Over the same period, the Morgan Stanley Capital International Index (in Sterling), the FTSE All-Share Index and the Investment Trust Net Assets Index rose by 15.6%, 16.8% and 20.9% respectively.

During the difficult market conditions of the previous three years, we outperformed these indices by some margin, as a result of the liquidity we maintained during this period and the diversified nature of the portfolio, particularly into asset classes which are less directly correlated to stock markets. Since the beginning of the year, we have increased our stock market exposure significantly, particularly in the Far East and, as a result, shareholders have participated in the recent rise in stock markets.

The increase in net asset value was attributable largely to the performance of the "quoted investments" section of the portfolio, which contributed £92 million towards the total increase in value of £118 million generated for shareholders over the period. A significant element of the portfolio – some 25% – is held in unquoted investments where values are likely to mature over a longer cycle.

RITCP's net asset value per share at 20 October was 523.2p – an increase of 21.6% since 31 March.

INVESTMENT PORTFOLIO

During the period under review, we were presented with a relatively brief opportunity to benefit from historically low interest rates. In July, we borrowed US\$150 million at a rate of 3.93% fixed for five years, thereby increasing the resources available to your Company at a reasonable cost. We believe that this will allow shareholders to benefit from the increased opportunities available at this stage in the economic cycle.

During the half year we increased the market exposure of the portfolio, particularly to Japan and other Far Eastern markets, with a corresponding reduction in our liquidity. We have realigned our currency exposure, continuing to hedge against the majority of our US\$ exposure, while seeking to diversify the currency profile of the portfolio. This has contributed to the positive returns achieved. The asset allocation and currency exposure are set out more fully on pages 2 and 3.

We aim to identify investment managers with outstanding expertise in different asset classes or geographical areas. Shareholders should be aware that some £295 million, or more than two thirds of the quoted portfolio of £418 million, is managed by fourteen external managers. The spread of investments made by each manager contributes significantly to the underlying diversity of the portfolio.

At 30 September, £418 million, or 47% of the portfolio, was held directly in quoted investments, compared with 40% at 31 March. A further £161 million, or 18% of the portfolio was held in funds (including hedge funds) which invest mainly in quoted securities. Taking these two categories together, some 65% of the portfolio was invested in quoted or other marketable securities, compared with 55% at 31 March. The total amount invested in this area has increased by some £200 million during the period under review. The chart and table on pages 2 and 3 also show the overall exposure of your Company to unquoted investments, whether these have been made directly by RITCP's own management, or through investments in externally managed partnerships which make private equity investments. In total, some £224 million, or 25% of the portfolio, was invested in this sector: £170 million, or 19%, by our own management and £54 million, or 6%, through our investments in limited partnerships managed by third parties. The amounts invested in this area have increased by some £36 million as a result of new investments made by our own management during the six month period.

RESULTS

The increase in your Company's net assets over the six months to 30 September amounted to \pounds 118 million, of which \pounds 112 million was attributable to capital and \pounds 6 million to revenue.

In line with our established policy, RITCP will not be paying an interim dividend.

Roamind

Rothschild 22 October 2003

4 LITIGATION

In November 1997 proceedings were issued in the New York Courts against a total of ten defendants, including the Company, by Richbell Information Services Inc. ("RIS") and certain connected entities. The proceedings relate to the Company's investment in H-G Holdings Inc. and a loan made to RIS by the Company's wholly-owned subsidiary, Atlantic and General Investment Trust Limited ("AGIT"). The claim against all of the defendants was for approximately US\$240 million. On 15 March 2002 the New York Court dismissed the proceedings in their entirety at their initial stage for failure to state a claim upon which relief could be granted. On 1 April 2002 the plaintiffs filed an appeal against that dismissal. On 23 September 2003 the New York Appellate Court affirmed the dismissal of the proceedings as to thirty causes of action included in the claim and as to AGIT. The New York Appellate Court reinstated three of the causes of action as to seven of the defendants, including the Company, and referred the matter back to the New York Court for further proceedings with respect to those three causes of action.

Based upon legal advice received, the Directors do not believe that the proceedings will have a material effect on the financial position of the Company.

5 STATUTORY ACCOUNTS

The financial information in this publication is unaudited and does not constitute statutory accounts. The statutory accounts for the year ended 31 March 2003 have been delivered to the Registrar of Companies in England and Wales and the report of the auditors on those accounts was unqualified.
